Subject: For OCSPF IO Review: SEPW and Sen. Carper TRI and PFAS TA request
Attachments: Technical_Assistance_PFAS_Legislation_4_29_2019.docx; CapitoTRIMFv4 EPA Responses 4_29_19.docx; PFAS - TRI (2019) v3.4-29-2019.xlsx; CapitoTRIMFv4.docx

Hi. Note there are instructions below that you will want to review to understand what to look for in each document. This is the the draft technical assistance for the draft PFAS legislation. OGC has cleared these documents. Kris or Ruth would you kindly print the attachments and this email in color for A, N, and C and put in their evening read file/folders. Thanks!

- Technical assistance to the draft legislation is being provided in two formats (identical technical assistance is being provided in each format)
 - “CapitoTRIMFv4 EPA Responses 4_29_19.docx” contains comment boxes that provide the request technical assistance. All redline edits were provided by Senate staff. EPA technical assistance is entered exclusively via comment boxes.
 - “Technical_Assistance_PFAS_Legislation_4_29_2019” provides technical assistance in a standalone Word file that is easier to read, with page/line citations to the draft legislation.
- The attached Excel file provides five worksheets that are responsive to requests for technical assistance, and are cited in the responses to the draft legislation (above documents):
 - “References” provides the source for the data, the requested CFR links and SNUR citations related to chemicals included in the Excel file, a legend, and a brief summary of the four other Worksheets in the file
 - “active & non-CBI”: PFAS substances that are active and identified by a SNUR or consent order and are not CBI are listed on this sheet
 - “active & CBI (sanitized)”: PFAS substances that are active and identified by a SNUR or consent order and are CBI protected are listed on this sheet (all CBI content has been sanitized)
 - “Draft Leg Named Chems”: Chemicals identified by name in draft legislation are listed on this tab (with EPA registry name if available)
 - “Draft Leg Named Chems Related”: Chemicals related to chemicals identified by name in draft legislation are provided (source: CompTox Chemicals Dashboard: <https://comptox.epa.gov/dashboard/>)
